

# What is the Tsurumi Community Welfare Plan (Tsurumi AI-net)?

First, let's get to the basics!

The Tsurumi Community Welfare Plan is designed to ensure that residents, business operators, and public organizations (such as administrative agencies, Social Welfare Council, and Community Care Plaza) cooperate in solving local issues such as welfare and health and promoting the system of mutual support in the neighborhood, thereby creating a community where everyone can live a peaceful and healthy life to the fullest.

In Tsurumi Ward, activities for developing the community where everyone can live a healthy life no matter who you are, children or adults, disable or not and we call it "Tsurumi AI-net". It has been promoted in collaboration with residents, related groups or organizations, and business operators since FY 2005.

"Tsurumi AI-net" is a nickname for "Tsurumi Community Welfare Plan" and was decided through solicitation. It means "Helping (tasukeAI), supporting each other (SasaeAI) and a human network."

## What individuals can do

Greet and say hello to your neighbors

## What groups can do

Take a little care of other members

## What the community can do

Activate communication through town events

# Direction of Term 4 of the Plan

Considering that local issues of the Ward are getting more diversified and complex, Term 4 will inherit the Basic Philosophy and Pillars for Promotion from Term 3 of the Plan (FY2016 to 2020) and make more vigorous efforts toward them.

## [Basic Philosophy]

Human Network for Helping and Supporting Each Other

## [Pillars for Promotion]

① Community development creates a lot of connections

● Action goals

- Exchange among many generations
- Cooperation among local groups and related organizations
- Revitalize local activities involving diverse actors

② Community development supports residents when necessary

● Action goals

- Develop a system for connecting everyone to necessary support
- Expand the circle of "taking a little care of each other" to the whole community so that support can be effectively delivered
- Ensure that everyone can feel safe to live to the fullest

③ Community development that residents live a healthy life

● Action goals

- Promote health-building activities in the community
- Create an environment where residents are willing to start and continue efforts to develop their health

Common elements that enhance all local activities

NEW

## [Foundations for Promotion]

### Human Resources

(Development of future leaders of the community)

● Action goals

Encourage residents to participate in local activities and promote the development of future leaders of the community

### Mutual Understanding

(Understanding and respect among residents)

● Action goals

Deepen mutual understanding so that different people can live together

### Places and opportunities

(Creation of places and opportunities where residents fit in)

● Action goals

Offer opportunities for fulfilled life in more accessible places
